

## **Ministry in the Planetary Initiations**

Ministry in the Planetary Initiations is embedded in the Divine Plan for each Soul. Depending on this Plan within you, you will manifest some on these abilities—based on your Soul’s mission and purpose.

The Multiplane Masters of the Mudrashram® lineage have uncovered the siddhi yantras for each of the forms of ministry for the First through Fifth Planetary Initiation. We will review these powers in this webinar.

Your task, as we go over these ministries is to contemplate them. You will note which ones you have already made manifest. You will notice which powers, though unawakened, evoke a feeling of affinity and resonance—this suggests that you may uncover these powers as part of your Soul’s journey.

Because a siddhi exists on your path does not mean your Soul will activate it; indeed, many of these powers, the Soul will never utilize. But it is important that you recognize them, and dedicate yourself to the learning and the self-study required for your Soul to actualize them—both in its Superconscious ministry (the Mantle of Light), and its gifts shared through your human personality (the Gifts of the Soul).

We have opted not to cover the ministry of the First Exoteric Initiation, which include the conventional ministry of the sacraments, and the invocation through prayer of the Holy Spirit, and the blessings of the Father, the Christ and the saints. Those facets of the rest of these types of ministry of the Planetary Initiations, ranging from the First Mesoteric Initiation to the Fifth Initiation, can be briefly summarized as follows:

## **Ministry of the First Mesoteric Initiation**

These comprise eight powers that are manifest through the form of the Saint.

1. Sending the anointing of the Holy Spirit, anchoring it in the receptacle of the Moon Soul or Christ Child
2. Guiding the attentional principle through the levels of the First Exoteric and First Mesoteric Initiation
3. Imbuing others with holy virtues and/or exemplifying those virtues
4. Revealing the meaning of scriptures (activating the Mind of Christ)
5. Imbuing others with the word of prophecy
6. Pouring forth the oil of anointing into the sacred heart center
7. Inspiring wisdom, discernment, and prudence through the polarity center
8. Guiding the attentional principle to the inner throne center, inspiring it to praise God and sing songs of gratitude to God

## **Ministry of the First Esoteric Initiation**

These manifest eight powers operating through the Esoteric Orders and the Mystery Schools.

1. Awakening the essence seed atom within the Moon Soul and activating energy matrix of the caduceus body
2. Activating the intuitive wisdom within each of the chakras of the caduceus body
3. Guiding the attentional principle through the Arcana of a Mystery School and reveal the meaning of the mysteries

4. Awakening the “mirror-like wisdom” that reveals the seed atoms of the Soul’s vehicles of consciousness
5. Revealing the Soul’s track through the Psychic Realm, the Wisdom Plane, and the each of the three bands of the First Initiation—Exoteric, Mesoteric, and Esoteric
6. Manifesting a guide form in the Psychic Realm, the Wisdom Plane, and the three bands of the First Initiation
7. Anchoring the Light of Illumination in each of the centers of the vehicle of consciousness operating in the First Initiation; revealing the Soul beyond that vehicle
8. Acting as a gatekeeper or guardian of the mysteries at the doorways of the First Exoteric, the First Mesoteric, and for a Mystery School in the First Esoteric Initiation

### **Ministry on the Tree of Life Subplane of the Second Planetary Initiation**

The ability to construct a “Pillar of Light” is granted on the second Subplane of the Second Planetary Initiation, bestowing up to eight powers upon the Mighty I AM Presence of the Solar Angel and upon the Soul.

1. Clearly intuiting the issues of others’ lives
2. Appearing in an angelic form to give guidance to others
3. Suggesting solutions for apparent problems and positive alternatives for negative thinking
4. Awakening memories of success and strengths in others
5. Tracing negative patterns to their origins in the personal unconscious or in past incarnations
6. Inspiring others to forgive those who have harmed them and to understand those who have caused them injury

7. Aligning others' resolve, commitment, decision, magical fiat, visualization and affirmation, and conviction of faith with the decree of the Mighty I AM Presence within the Solar Angel
8. Lifting the attention of others into the present time of the Akashic Record, which allows them to become aware of their Soul's thoughts and intentions, and the Soul's overshadowing presence

### **Ministry on the Ascended Master Subplane of the Second Planetary Initiation**

The form of the Ascended Master is encountered on the fifth Subplane of the Second Planetary Initiation. It bestows up to eight powers on the being that activates this form, as they journey through these realms.

1. Awakening each center within the Solar Angelic form and the Mighty I AM presence within the sacred heart (Hridaya) center
2. Manifesting a guide form to the attentional principle of others to guide them through the Subplanes of the Second Planetary Initiation; to show them the Arcana of the Greater Mystery Schools [on the 4th Subplane of the Second Planetary Initiation]; and to reveal the Ascended Master form within them
3. Empowering the spiritual powers of others in their vehicles of consciousness of the Biophysical Universe, the Abstract Mind Plane, the Psychic Realm, the Wisdom Plane, in the three bands of the First Initiation, and the Second Initiation
4. Inhabiting and operating from an immortal etheric form of Mastery in the abode of the Ascended Master on the fifth Subplane of the Second Planetary Initiation

5. Awakening the Kundalini Shakti in others up to their Mighty I AM Presence
6. Sending the Light of Attunement on the Psychic Realm, the Wisdom Plane, in the three bands of the First Initiation, and the Second Initiation
7. Accessing one or more of the 33 supernatural powers anchored in the spiritual crown center, as bestowed by an Adept Master [see explanation under the Glorified Ascended Master section]
8. Formulating decrees for each segment of the Path through the Biophysical Universe, the Abstract Mind Plane, the Psychic Realm, the Wisdom Plane, the three bands of the First Initiation, and the Second Initiation

### **The Glorified Ascended Master**

At a higher turn of the spiral of spiritual evolution, when the individual becomes united with the Monad (Adept), and then ascends as the Monad into an Office of the Planetary Hierarchy (Adept Master), the Ascended Master form is Anointed and Fully Empowered, which yields up to 33 additional powers. These powers are described in the Judeo-Christian scriptures; the Biblical Prophets and the Christ allegedly demonstrated many of these miraculous powers. [Jesus Christ was believed to have mastered all 33 powers!]

The initial powers awakened on this Subplane while the Soul is undergoing the Second Initiation are said to spring from the forehead or brow area. Those selected 33 additional powers that are granted to the Adept Master arise from the brain or “crown” of the Ascended Master form. The clairvoyant, viewing this glorified form, may behold many “jewels” in the crown of this Glorified Ascended Master.

The 33 powers of the Glorified Ascended Master include:

- (1) The power to multiply objects [e.g., the feast of the loaves and fishes]
- (2) The power of sensory renewal, restoring sight to the blind and hearing to the deaf
- (3) The power to restore movement to the paralyzed and walking to the lame
- (4) The ability to heal others and restore wholeness
- (5) The ability to know the thoughts and “the hearts” of others
- (6) The ability to set others free from demonic possession, mental obsession, and addiction

- (7) The ability to manifest the guide form to both the spirit and the attentional principle [this guide form appears at the Atma Dwara or door of the Soul and on the path of the spirit]
- (8) Ability to transmute the molecular structure of metals into gold
- (9) Ability to reform the evil character of others and awaken love in their hearts
- (10) Ability to transmute karmic impressions [e.g., forgiveness of sins] through consuming them in the Light of Spirit
- (11) The ability to impress stone by thought [e.g., the miracle of the writing of the ten Commandments on tablets of stone]
- (12) The ability to speak through a plant [e.g., the Burning Bush], an animal [e.g., the ass of Balaam], or a stone idol
- (13) The ability to speak telepathically to others so they hear your words in their own language
- (14) The ability to quell the upset of a troubled animal or human and grant them peace
- (15) The ability to receive the impress of an Ascended Master to draw it, sculpt it, paint it, or express it through the spoken or written word, or through music [My first teacher, the Maha Genii had this power. The Archangel Gabriel allegedly used this power to dictate the *Koran* to the Prophet Mohammed.]
- (16) The ability to know the sinful deeds of another
- (17) The ability to see visions of the future as inspired by God, and to declare them to others [e.g., the ability to function as a Prophet]

- (18) The ability to restore a damaged or traumatized brain to sanity and normal functioning
- (19) The power to resurrect the dead [e.g., re-infusing the life force to bring someone back to life]
- (20) The power to become so light as to walk on the surface of water
- (21) The power to levitate and fly through the air
- (22) The ability to make the body invisible and inaudible, undetectable by the senses of others, so that one can walk among others, unseen
- (23) The power to dematerialize the body, to ascend into Heaven, and to assume an immortal form of Light
- (24) The power to create anything that one wishes from the ether, and to have it instantly manifest
- (25) The power to dematerialize an object or person in one location and bring them to your location
- (26) The power to dematerialize your own form and transport it to another location
- (27) The ability to know from the Silent Ethers the past lives of others and to awaken that remembrance of those lives in others
- (28) The ability to bestow spiritual seeing and hearing on others
- (29) The power to assume an inner form and visit the inhabitants of the Astral Worlds; this same power can be used to visit others in the dream state
- (30) The power to convey the Soul Spark across the Lower Astral Plane
- (31) The power to appear to the spirit in the first and second domains and lead it to liberation, and lead it to the feet of the form of the Ascended Master

(32) The power to awaken knowledge of the Soul (the Physical Attunement); faith in God; the cord of remembrance (Antakarana); the Soul's innate powers; and to impart and confirm new powers to the Soul

(33) The ability to sit in the center of the wheel of the empowered form of the Ascended Master and coordinate or bestow these 33 powers; or activate the eight powers granted during the sojourn through the Second Planetary Initiation

[Before you get fanciful ideas, realize that only a few intrepid Souls throughout human history have done the additional spiritual work to activate these miraculous powers that survive in our legends and are recounted in world scriptures. If any of these powers are granted to the Soul, they are bestowed only if they are relevant to the mission and purpose it must fulfill.]

### **Ministry of the Third Planetary Initiation**

These comprise twelve powers that are manifest through the Manasic Vortex as the Soul undergoes the Third Initiation.

1. Activating the Light of Mind to utilize any mental faculty and to synergize all mental faculties through bringing about synthesis
2. Contemplating a seed thought or symbol and extracting its meaning
3. Anchoring a seed thought using intention, which activates the Astral Plenum to manifest a specific condition
4. Contemplating the radii of the Star of Mind to determine the degree of awakening of each skill necessary to carry out the Soul's work [those who have a Crown of Purpose additionally use this ability to contemplate the radii of that torus in this same manner]

5. Activating each radii of the Star of Mind to use that ability; to reveal the elements that make up that ability; and to unfold new elements of that ability through anchoring the Light of Attunement on each radii
6. Directing the personality through overshadowing the personal octave of will with the Transpersonal Will
7. Invoking the intuitive knowledge of the Soul to shed light on any personal issue or collective problem
8. Attuning with the Divine Will through the Monad
9. Attuning to the Planetary Hierarchy, drawing down its Light and Illumination, and radiating this out to the world
10. In those that have a Crown of Purpose anchored in the Plane of the New World Servers, embodying this Crown of Purpose and coordinating the activity of the personality to manifest this purpose
11. In those who do not have a Crown of Purpose, contemplating the Great Plan, which is at the 49th nodal point of the Plane of the World Servers
12. Acting as the verbal channel and/or receiving direct intuitive guidance from one of the Masters of the Planetary Hierarchy—this establishes an attunement between the Manasic Vortex of the disciple and the form of the Lord of Mind that the Adept Master embodies [Both Helena Blavatsky and Alice Bailey established this attunement with the Master DK]

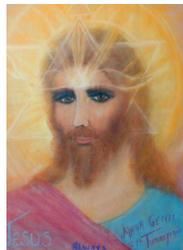

### **Ministry of the Fourth Planetary Initiation**

These comprise eight powers that are manifest through the Augoiedes as the Soul undergoes the Fourth Initiation.

1. Hearing and feeling the evocation of humanity; feeling humanity's collective suffering

2. Manifesting the radiant Buddhist field of Illumination that purifies negative impressions from the mind and reveals the truth within each individual who is immersed in this downpour of Light and knowledge
3. Mobilizing the thought force and aspirations of humanity to accomplish a collective purpose [e.g., the abolition of slavery or apartheid] in those that play the role of a Planetary Avatar
4. Attuning to the spirits of others and revealing a guide form to lead them on the Nadamic Path [the Path]—this ability extends from the first domain through the third domain, and brings the spirit on the fourth path up to this glorified golden form in the Buddhist Plane
5. Mirroring each form (vehicle of consciousness) of development on the Subtle and Planetary band of the Great Continuum; revealing the centers of each form; anchoring the beams of intuitive knowledge in each seed atom of each form to awaken insight and understanding
6. Embodying the Diamond Soul, the perfected form of Mastery over all lower worlds [the Truth]
7. Revealing the Soul and the Way leading to it [the Way]
8. Embodying and radiating the Great Light of Compassion [the Life]

Jesus' declaration in the *Bible* that he was “the Way, the Truth, and the Life” points to his attainment of the Fourth Initiation.

## **Ministry of the Fifth Planetary Initiation**

These comprise 49 powers that are manifest through the Transpersonal Will as the Soul undergoes the Fifth Initiation. The Mudrashram© Correspondence Course details these powers—there are seven powers that are gained at the following seven levels. Those that undergo the Fifth Initiation are prepared to embody the Divine Life of the Monad, as the Adept.

1. The seven names of God
2. The seven life currents
3. The seven etheric forms
4. The seven nodes of the astral body
5. The seven flames of the causal body
6. The seven sheaths of the mental body
7. The seven octaves of the Will

Ministry means using the powers or abilities bestowed upon the Soul for the service of others. On your journey through the Planetary Initiations, some of the powers we have recounted today will be added unto you to enable you to carry out the work assigned to you in God's Plan.

You will never be granted these powers to satisfy your desires, or for your vainglory—they are granted to you only for the purpose that you have been sent here to do. No one can do your work for you; you have a unique work to do in the service of humanity and the kingdoms of Nature.

May you recognize these abilities that make up your ministry. May you activate them and utilize them to participate in the work of the Masters to assuage the great suffering and remove the great ignorance of humanity.

Thank you for attending our webinar today!
