

Reflections on Messianic Advent and the Ministry of the Holy Spirit

In this webinar, we will return to our exploration of Judeo-Christian spirituality to explore two themes: (1) the expectation of a second coming of a Messiah or Anointed One to vindicate the faith and longsuffering of the faithful, (2) and the ministry of the Holy Spirit in its different forms.

These two seemingly disparate themes are tied together in this way: the return of the Master or Savior is the fulfillment of the devotee's desire for relationship and communion with the Divine as expressed through the presence of the Messiah; the response to the devotee's invocation of the Divine through the Master is fulfilled through the ministry of the Holy Spirit.

As you will see in this webinar, the ministry of the Holy Spirit is not limited to the arena of the First Initiation, but also extends its reach through the Wisdom Plane, Psychic Realm, and the Abstract Mind Plane. We will detail these other aspects of ministry.

On Divine Advent in Judeo-Christian Religion

While the idea of a Messiah is slightly different in Judaism than in Christianity—a warrior king who will destroy the enemies of the Jews versus an incarnation of Divine Love and Grace—the expectation that Someone filled with Divine Power will come to the earth and will be recognized by the faithful as the fulfillment of their fervent desire is nearly universal.

Given that some live their lives as if that this Advent will occur soon, and they will meet this fervently expected One while they live, the exploration of this topic is timely. So we will seek to shed some Light on what an Advent might entail—and there are several scenarios.

Miraculous Appearance – in this vision of the Advent, the Messiah will appear in the sky, appearing from Heaven, where He now dwells.

Reincarnation – in this scenario, the Savior will take another birth, grow up as a child, and then, in the prime of his physical and intellectual powers as an adult, will reveal His Presence to the world.

Immortal Body – this view holds that the Master has attained an immortal or deathless body; that he is now in the world in a secret location; and as conditions become right, will reveal that He is present with us.

Inner Advent – this perspective suggests that since the Master achieved a state of Mastery beyond any necessity to be reborn, the real Advent occurs within the human heart (e.g., Moon Soul nucleus of identity) when the Master sends the Holy Spirit, and you commune with Him through prayer and inner dialog.

An Inner Relationship (Discipleship) – in this version, to commune with the Beloved Master, you must unfold your spiritual potentials to the level where you can receive his direct thought impress and commune with His radiant guide form within—to become His disciple. He will not return physically and doesn't need to do so—rather, you must journey inward to the place where you can commune with Him.

Mystic Union with His Consciousness – in these conceptions, the Master dwells in the Presence of the Divine; through your inner transformation—via Bija mantra, Kriya Yoga, or opening the inner channels of the Nada with your spirit, your spiritual essence journeys to the same state where He is, and you incarnate that Master Power through your own life.

Ascension – in this belief, the Master has raised His vibration to a level where He is invisible to you. Through pure living and specialized spiritual practices you raise your vibration to the level where you can see Him as He is, and you dwell with Him in that same state ecstatic state.

In the first scenario, the Messiah is expected to appear in a glorified form in the clouds, and will receive the believers into His Presence. This mass levitation, or Rapture, will purportedly occur over Jerusalem. We point out that this will cause a major disruption of air transportation in the Middle East, if it occurs. Moreover, believers with acrophobia would experience terrible panic attacks if they were suddenly suspended in the air!

[We note that when the spirit ascends on the third track of the Nada, one of the first visions that it sees is the presence of the Lord in the clouds—we wonder if one of Jesus' early disciples let this secret out, and modern believers—not understanding this mystery—have interpreted it in a literal sense.]

The second two perspectives look to the actual physical appearance of the Master, either through reincarnation, or revealing His immortal form that now dwells covertly upon the earth.

Our main concern with this scenario is that when He makes His announcement in our modern world, we wonder if he won't immediately be arrested, and taken in for psychiatric evaluation for paranoid schizophrenia, because he has declared delusional beliefs about being the Messiah.

We also question whether the faithful would universally accept Him, as there are so many disparate conceptions of what the Messiah would be like and what He would do—for if He didn't look like what believers expect, they would reject Him. So the Messiah might come and go, and many of his ardent believers would miss Him because they were looking for someone else.

[Many Christians believe that Jews missed Jesus through this conceptual filtering, because they were looking for their warrior king to vanquish the Romans, instead of recognizing Jesus as the Messiah, who was prophesied in their scriptures.]

The fourth vision states that the second coming of the Messiah is in response to the faith and prayers of the believer, who communes with the Master in an inner relationship of love and intimate dialog—and this relationship lasts during life, and continues after death.

This viewpoint does not require the believer to levitate, nor is any physical presentation of the Savior required—the tendril of your faith extended to the Lord allows this communion to be established and maintained through all of the vicissitudes of life.

This scenario is one in which we can envision the ministry of the Holy Spirit bringing the Master’s Grace to where believers “dwell in being”—teaching, guiding, and communing with them, where they are. This suggests that there will be a different teaching given, depending on where the believer dwells—and as we shall see—this gives rise to wide variety of contexts where the Holy Spirit carries the Master’s love, wisdom, and power.

The next three perspectives require you to go where the Master dwells to commune with Him, as He is. In these viewpoints, you transform your spiritual essence to the point where you can commune with the Master, become one with the Master, or raise your vibration to the point where you are on the same Plane with the Master.

We teach these transformational methods in the Mudrashram® Master Course in Meditation and the Accelerated Meditation Program. So, if you want to go to the levels where you can encounter Moses or Jesus, as they dwell on the higher Planes, you can learn these methods from us.

Receiving the Holy Spirit

The Holy Spirit, in the Judeo-Christian perspective, dwells at the very entrance to the abode of the saints in the First Mesoteric Initiation. Saints and other Initiates, who dwell in this inner circle of the presence of God, have the ability to send the Holy Spirit to others through this universal vortex—which some have called the Holy Ghost—through attunement.

We note that this ministering Power of God can be viewed in different contexts across the Seven Rays, so it has come to be identified with various spiritual agencies.

Ray	Spiritual Agency	What It Does
1	The Divine Will	Directs the action of the Masters of the Hierarchy—the inmost ones, or Elohim
2	The Maha Chohan	Coordinates the activity of the seven Chohans on each of the Seven Rays
3	The Third Person of the Trinity	Carries out the ministry of the Father and the Son in Creation
4	The Mother Power of God	The Divine Feminine ministers to those who are in Creation though love and wisdom
5	The Vortex of the Holy Ghost	Those who dwell beyond this vortex have the power to anchor this Divine Light in the receptacle of the Moon Soul through attunement
6	The Paraclete or Comforter	This holy energy, sent from Jesus, bestows emotional and physical healing [NB, any member of the Hierarchy of Light can send this energy, as can many of their disciples, who have been trained in this ministry]
7	Metatron	This mighty angelic being coordinates the ministry of the Light in the angelic kingdom via the seven Archangels, who transmit the Light through the Seven Rays

As this energy of the Holy Spirit passes beyond this Inner Circle of the Presence of God from its apparent Source—as you might behold it from the perspective of your Soul’s Ray—it ministers through eight spheres:

1. The inner altar of the Moon Soul, processing the twelve “offerings to the Holy Spirit”

2. The Spirit of understanding and wisdom on the Wisdom Plane
3. The Spirit of forgiveness on the Wisdom Plane
4. The form of the angelic guide emanating from the Presence of the Father Mother God encountered on the Psychic Guide Subplane of the Psychic Realm
5. The Star Being's "power of DNA activation" on the Pleiadean Vortex Subplane of the Psychic Realm
6. The ministry to the spirits of the dead and the living on the Heavenly Realms Subplane of the Psychic Realm from the Presence of God on this Subplane
7. The activation of psychic powers [AKA Gifts of the Spirit] on the Psychic Powers Subplane of the Psychic Realm
8. The ministry to those on the Abstract Mind Plane through the Spirit at the top of the Universal Mind Subplane

Individuals who commune with God on each of these levels—as He, She, or It can be known there—receive their response from the Divine through the ministry of the Holy Spirit.

We will briefly survey each of these contexts of ministry of the Holy Spirit to familiarize you with them.

The first context is that of the ministry of the Holy Spirit to the Moon Soul. Here it dwells as a "flame upon the sacred altar," and accepts the twelve offerings of the human heart. We excerpt from one of our previous webinars, where we first described these twelve types of offerings to the Holy Spirit, and their correspondences to the signs of the zodiac.

The Twelve Offerings to the Holy Spirit

“The Bible mentions twelve kinds of offerings, which represent repentance, personal dedication to God, and expressions of worship and gratitude for the Divine. These are charted below:”

	Animal	Meaning	Sign
1	Sheep, lamb (baby), or ram (male)	Forgiveness of sins committed in ignorance (omission)	Aries
2	Bull (male), ox (castrated male), or calf (baby)	Forgiveness of sins committed willfully (commission)	Taurus
3	Frankincense or incense (burnt offerings)	Consecration of the mind; creating a sacred atmosphere	Gemini
4	Turtle dove or pigeon	Consecration of the heart, Devotion	Cancer
5	Offering of life for the service of God	Consecration of life	Leo
6	Money or tithe	Dedication of wealth to the service of God	Virgo
7	Offering of the first fruits of the harvest	Dedication of labor to God	Libra
8	Drink offering, or wine	Sublimation of hormonal essences	Scorpio

	Animal	Meaning	Sign
9	Song, praise, or thanksgiving	Gratitude	Sagittarius
10	Goats	Forgiveness of the sins of the ruler, asking for blessings for the welfare of the community	Capricorn
11	Anointing with oil	Commission for spiritual or religious office, or empowerment as a king or leader	Aquarius
12	Unleavened bread, fine flour, or loaves and fishes	Placing the attention upon the Moon Soul, union with the vesica piscis	Pisces

“The complete work of union with the Moon Soul (sanctification) is achieved through connecting these twelve pathways of evocation...”

You activate this ministerial nexus of the Holy Spirit, as it dwells upon this inner altar, when you pray for forgiveness, and on behalf of others; when you dedicate your actions, your labor, and your wealth to the work of God; when you consecrate yourself to serve God, when you praise or worship God, or when you meditate upon the Moon Soul.

This is the context in which many of the religious sects, who draw their inspiration from the First Exoteric Initiation, operate. The objective of their evocation is to draw down the Holy Spirit into this receptacle of the Moon Soul.

When you meditate the ministry of the Holy Spirit through understanding and wisdom, the context is changed to gathering wisdom, and understanding of others. We excerpt from the Mudrashram® Correspondence Course to shed light on this aspect of spiritual development.

The Understanding Subplane

Excerpted from the *Mudrashram® Correspondence Course*

“When the Soul enters the Understanding Subplane, it begins to see the true motivations for behavior and attitude, the factors that lead to success and failure, freedom and bondage. The seven nodal points on this Subplane reveal the following new understandings that arise.”

1. Understanding why your ego reacts the way it does
2. Understanding your own motivations, and those of others, in intimate and romantic relationships
3. Understanding professional and economic relationships, how social roles shape the behavior of employees and employers
4. Understanding why some are led to charity, service, and goodwill, while others choose greed, exploitation and enmity
5. Understanding why some excel in study, in mastery of knowledge and talents and why others fail
6. Understanding why some people are connected with their Soul's life and express its gifts, and why others are cut off from its light
7. Understanding that success, fulfillment, and inner freedom are possible.

By using the abilities of the Wisdom Plane

- To review the experiences of present and past lives
- To dissolve negative karmic seeds and controlling subsequent creations
- To live in harmony with the karmic law
- To develop forgiveness, compassion, and understanding

Success, fulfillment, and inner freedom can be achieved.

Meditating on Understanding

“Move your attention up to the seventh nodal point of this Subplane. As your awareness opens, you will begin to become aware of the motivations and choices that you and other people make that influence their serenity, success, and spirituality.”

“From this vantage point you will not surmise, you will not theorize why certain events have occurred in your life and the lives of others—here you will discern and know the true causes for your happiness or misery, your triumph or despair.”

As the Holy Spirit operates through this center, it reveals these truths, and your Soul gains understanding. This is the context through which the wisdom teachings, described in the *Bible* chapters of Proverbs and Ecclesiastes, are disseminated.

The Forgiveness ministry of the Holy Spirit operates through the Forgiveness Subplane of the Wisdom Plane. We again quote from the Mudrashram® Correspondence Course to elucidate the work on this band of the Great Continuum of Consciousness.

The Forgiveness Subplane

Excerpted from the *Mudrashram® Correspondence Course*

“When the Soul enters the Forgiveness Subplane, it realizes that much of the karmic bondage that creates relationship tensions and misery between people, in communities and among nations, is founded upon resentments, unfulfilled expectations, and broken promises between people.”

“Resentment breeds vindictiveness, jealousy, the desire for revenge, and hatred. It gives rise to cruelty, violence, and war.”

“Unfulfilled expectations lead to disappointment, hurt, and mistrust of others. They contribute to attitudes of suspicion, judgment, and criticism of others.”

“Broken promises evoke betrayal, anger, and despair. They lead to the breaking apart of relationships, of communities and of nations, for these agreements form the foundation of the social contract of values that allow people to interact amicably and equitably.”

“The seven nodal points of this Subplane deal with expressing forgiveness. These issues are dredged up from the present and past lives, reviewed, processed, and released. The following themes appear for each of these nodal points:”

- (1) Forgiving physical injury, neglect, and abuse from others
- (2) Forgiving heartbreak and betrayal, and sexual infidelity
- (3) Forgiving theft, deceit and fraud, which resulted in personal financial loss; or job termination, which brought loss of livelihood
- (4) Forgiving betrayal by agents of a political or religious organization, e.g., betrayal by kings and priests
- (5) Forgiving yourself for missing an opportunity to serve others, to express your Soul’s gifts, to refine and develop your talents, and to make spiritual progress.
- (6) Forgiving yourself for having poor judgment, incorrect intuition, for creating misery for yourself by unwise choices, and for setting up karmic causes in past lives that have brought forth unhappy conditions in this life
- (7) Forgiving yourself for your own blindness and ignorance by which you have wrought great suffering for yourself and others; feeling compassion for yourself and others

Meditating upon Forgiveness

“Bring your attention up to the seventh nodal point on this Subplane. Hold your attention one-pointedly on this center, and your awareness will begin to awaken.”

“You will begin to review the issues of your current and past lives, and spontaneously you will begin to process and release these powerfully poignant emotional issues. Then you will feel the upwelling of forgiveness and compassion, washing them away.”

“You will need to keep facial tissue at hand because this material will evoke weeping from even the stoniest of hearts; weeping will cleanse your heart and release much pain and the sense of burden you may have been carrying for many years.”

The invocation of the Holy Spirit to indwell this center animates the groups that do forgiveness work, including those groups that are based on *A Course in Miracles* teachings.

The Angelic Ministry of the Holy Spirit

The angelic ministry of the Holy Spirit operates on the highest Subplane of the Psychic Realm. Here the Light embodies through the forms of angels, where it provides guidance, teaching, healing, and purification to those in attunement. This ministry focuses the Light of the Mother Father God at the top of the Psychic Realm in seven ways:

1. Attunement with the colored seed atom on the Psychic Guide Subplane
2. Channeling intuitive guidance through the thalamic or brow center—this is the guidance ministry of the Holy Spirit
3. Communicating the guidance of the angels as speech through the throat center—this is the teaching ministry of the Holy Spirit
4. Radiating Divine Love into the heart center—this is the emotional healing ministry of the Holy Spirit

5. Inspiring virtue through the solar plexus center—this is the correcting and purifying ministry of the Holy Spirit
6. Sending the healing stream of life force through the navel center—this is the etheric healing ministry of the Holy Spirit
7. Activating the power of manifestation through the center at the base of the spine—this is the miracle working power of the Holy Spirit

Those who are clairvoyant will see the Light of the Holy Spirit channeling through the forms of angels or spiritual guides that can be visualized on this Subplane.

Ministry on the Pleiadean Vortex Subplane

We admit that ministry on this level is somewhat odd, but it is real and compelling to those who dwell here. What the Light does here is twofold: (1) it purifies strands of [what is described by those who dwell here as] “DNA,” and it (2) transforms a form that dwells on this Subplane to a higher vibrational frequency, until you become a conscious star being. [This is where you practice your alien voice, and say, “Don’t tell anyone...it’s our secret. Actually, I am a space alien!”]

It appears there are seven major strands of “DNA” that can be visualized here, though some multiply this to 24 strands...56 strands...108 strands...competing with those who dwell here to see who can purify the most strands and reach the highest vibrational frequency.

In our meditations on this realm, we have verified seven strands, and these appear to correspond as follows:

Strand	Stage of Evolution	Features
1	Proto-human or Hominid	This comprises your primitive animal or carnal nature, governed by the reptilian and mammalian brain structures.
2	Modern human, Homo sapiens	This imparts the three-dimensional, linear, rational, empirical worldview, which is governed by the neocortex.
3	Astral body activation	This activation awakens your astral body, and enables you to travel in the astral body, to do remote viewing, to use your astral senses, and to powerfully augment your faculty of imagination.
4	Spiritual heart activation	This activation awakens your spirit, bringing out your spirit's innate love, devotion, dedication, enthusiasm, courage, and faith.
5	Activation of the Soul's Thought	This activation awakens the wave of the present time on the Akashic Records, which awakens your intuition, gives you remembrance of your past lives, and allows you to begin consciously processing and releasing your issues.
6	Activation of your psychic vehicle	This activation awakens your psychic abilities, and enables you to "read" others, and begin to do healing and channeling.
7	Activation of the form of your "Star Being"	This connects you with the Light, and if you are chosen to be a minister of the Light at this level, you will be able to make these attunements and turn others into Star Beings like yourself.

Those who work on the Pleiadean Vortex Subplane embrace this spiritual ministry, and seek to activate your "DNA" and raise your vibration and your consciousness. The UFO groups use this ministry.

Ministry on the Heavenly Realms Subplane

This type of ministry views others as a spiritual essence, or spirit. The ministry at this level appears to emanate from the Presence of God on this Subplane. The Spiritualist Church and the Mormon Faith appear to tap into the Divine on this Subplane. Ministry of the Holy Spirit through this vortex can take the following forms:

1. Guiding the spirit through the channels of the Nada
2. Giving counsel to the spirit about the issues of life—inspiring faith, hope, love, courage, dedication, perseverance despite obstacles, and enthusiasm
3. Purification of the spirit's astral aura
4. Linking with and channeling a spiritual entity
5. Activating the senses of the spirit, awakening heart sight and heart hearing
6. Correction and chastisement
7. Bringing remembrance of the nature of the spirit; the rebirth of innocence

The Gifts of the Spirit: the Activation of Psychic Powers

In Charismatic and Evangelical sects of Christianity that invoke the Holy Spirit to grant them the gifts of the Spirit, we see a concurrent activation of the vehicle on the Psychic Powers Subplane. This “inspired demonstration” of their faith appears to activate the Christ Child center and this vehicle on the Psychic Realm. Twelve powers appear to come through this corridor:

1. Activation of the cord of faith
2. Word of knowledge (the spontaneous glimpsing of incidents from other people's lives—past, present, and future)

3. Word of counsel (the ability to receive the intuitive impress of the Holy Spirit; some individuals are able to communicate this verbally as preaching)
4. The word of prophecy (the ability to channel the Holy Spirit as the voice of the Divine, “thus sayeth the Lord”)
5. Speaking in an unknown tongue, the tongues of men and angels (called glossolalia, this gift appears to give a voice to the unconscious band of the mind as quasi-mantramic syllables)
6. The gift of healing
7. The knowledge of the body’s state of health or illness
8. The discernment of spirits (this ability allows you to clairvoyantly see spiritual beings, astral bodies, and the embedded thought forms in the unconscious mind of others)
9. Knowledge of the future (the ability to discern future events by an intuitive sensing of the movement of stars and the signs of Nature)
10. The word of wisdom, knowledge of the causes of human sin and misery
11. The ability to dissolve or remove a negative condition or behavior (deliverance)
12. The ability to create a desired condition (the power of miracles)

Ministry on the Universal Mind Subplane

Excerpted from the *Mudrashram® Correspondence Course*

“The Universal Mind contains the original Laws of Creation for the Abstract Mind Plane. The seeds that you anchor in the creative matrix of the Abstract Mind Plane need to be in harmony with these laws to create happiness, wealth, blessings, and joy.”

“If you anchor destructive seeds in this matrix, you reap misery, illness, misfortune and pain. On this Subplane, you review the seeds you have sown, and determine what they have brought you in your life. You then bring your affirmations in line with the Laws of Creation. There are 12 Laws, corresponding to the 12 nodal points on this Subplane:

1. The Law of Prosperity and Abundance – the state of having the resources to be fulfilled
2. The Law of Love – grants affinity and harmony with others in your relationships
3. The Law of Kindness – doing action that improves the lives and welfare of others
4. The Law of Forgiveness – releasing resentments, expectations and judgments about others and letting them go free
5. The Law of Justice – you are responsible for what you create: what you sow, that shall you reap
6. The Law of Peace – promotes healing by giving rest to the heart, calming the emotions and restoring the body to a state of relaxation and lowered stress
7. The Law of Wholeness – Universal Mind pictures all body organs and systems as functioning perfectly. When the attention is held one-pointedly in this vision, life force flows to produce healing
8. The Law of Victory – grants the power to overcome apparent obstacles and to achieve success
9. The Law of Freedom – the power to liberate yourself from emotional burdens, physical and mental limitations, negative conditions, and exploitive and oppressive people, economic and political systems—the power to rise above your surroundings.

10. The Law of Power – the Creative Word that manifests all seeds planted in the matrix of the Abstract Mind. This power activates affirmations.
11. The Law of Thought – this is the expression of the Universal Mind as Divine Thought. This sends forth seven rays into Creation, animating the seven Subplanes.

These rays are as follows:

1st Ray	Demiurgic Subplane
2nd Ray	Universal Mind Subplane
3rd Ray	Temple of Philosophy Subplane
4th Ray	Temple of Art Subplane
5th Ray	Temple of Science Subplane
6th Ray	Akashic Aether Subplane
7th Ray	Body–mind Programming Subplane

12. The Law of Attunement – this is the Source of the apperceptive atom of the Abstract Mind Plane. This attunement proceeds from the Father, or Infinite Mind. It radiates through the Son, or Law of Thought, which gives rise to the seven rays. It pours out as the Holy Spirit, or Law of Power, which activates the creative affirmations of the apperceptive atom within its respective Subplane of the Abstract Mind Plane.

Those groups that are anchored on the Universal Mind Subplane of the Abstract Mind Plane—such as Religious Science, Science of Mind, Unity, and Christian Science—invoke the Light of the Holy Spirit at this level, asking it to empower their affirmations and to manifest what they visualize. The Light of the Holy Spirit is their connection with the Source that they view upon this spiritual horizon.

Thank you for attending our webinar today!
